

ANIMAL LEATHER MUZZLES

A 20 year review from Camms Road Veterinary Clinic Cranbourne

These muzzles are awesome! Nothing less! We purchased our original set over 20 years ago and then another set about 10 years ago, including the then “new” Rottweiler and Tiny sizes. See the attached photos. They are beautifully made and robust, easy to apply, are quite comfortable for the dog, provide excellent safety for us and have served us well all these years. If you don't have a set then you need them!

Dr Robert J Peiffer

P.S. You can also audition your patients for the movie sequel “Silence Of The Puppies”.
